

I Fell In Love

Lyrics by: RayWellz

Music by: Adonis

(Verse One)

How could I ever live with all the things I did with all the lies I hid
You should'a had my kid should been backstage smile'n at all my gigs lift up ya shirt
touch ya stomach I'm ya rib
Do you remember that do you remember when we use to hunch through the phone till ya
cell would die I'm gon get you out this hell and we all gon fly
I was in love with her I never thought I'd get caught that was immature
She was the wife you was the getaway girl but you see when life gets tough you wanna
get away with a girl so real no ring but still a soul mate feel
Saw things I would never see it's kill'n me to know again we will never be
I say eternally and endlessly around you I built an embassy my heart don't beat no more
you the reason I don't cheat no more

(Chorus)

I fell in love while I was in love
While I was involved while I was stirring in her eyes
What I'm I to do?
You know I love her to
There's one and now there's two
She found another clue
I'm crying out for you

(Verse Two)

(Question)

Why did you let me go I guess I had to grow inside I'll always know my love'll always
owe I did some wrong with all this dirt I could fill a hole
Future baby motha loved you like a baby brotha YES my name in green letters on the left
side of ya yellow breast (Wait, wait, wait, wait)
By cheat'n on you I only played myself I was depressed couldn't eat I enslaved myself
You see months went by and I couldn't even face you its been two whole years
sometimes I still taste you
Things is different now I could see that you pregnant with that be'n done I'm a make an
amendment I'll be there like a pendant
But I won't come between you and ya baby father I don't owe child support but I'll
support dat child
I'm just try'na stay cool in a cold world I know you got'a man but you'll always be my
girl

(Chorus)

(Bridge)

New coup on ya birthday I got dat girl

Ya tuition and ya books I done paid dat girl

A should'a fa tears I done been dat girl

That little beef with ya ma you could end dat girl

You could take this world the good life the hood right

No matter what they say you gon reap what you sow you got so much love in the ground

On me how bout a night on the town don't forget to go up you just never look down

(Chorus)
