(Verse one)

God forgive me for have'n sex before I married
God forgive me for jump'n that boy on Lodi and Mary
Forgive my homies to for they know not what they do
It's a doggy eat dog world and we just try'n ta make it though
God forgive me for this weed I hint and drink I tip
I know it's rightfully wrong to right this song
But please forgive for the times I couldn't write my wrongs
See I know life is hard but I still try ta go on
God forgive fa not write'n my pops fa sixteen years
I know this verse isn't bars this is sixteen tears
God forgive for the things I can't say in this verse
And forgive for the times I was tipsy in church
Understand if you can't cause all love hurts
But if you could I'll appreciate it for all that its worth

(Chorus)

God forgive me

Bri you know its real we been down since sixteen
This is for my homies that's float'n in mid air
Drop a little drink and a few tears leave for a few years come back unexpected wear'n

Its nothing just ta walk outside and look all fly
And know the sun a still shine when I die
God forgive me
