

Everything's Good

Lyrics by: Raymond Blackwell

Performed by: RayWellz

Music by: Unknown

(Verse One)

I was born at the bottom I'm a die at the top I went from ungrateful fiends to Louie
Vinton sox

Unorganized crime as we stood on the roadblocks

I use to light the stove on the stove now its lighters in the suit

Imported cigars die now or talk it over in the Rova

My stash spot is in the laptop as I review poverty don't fit you money is no issue

Have'n it rough but there's nothing worse in this world than get'n use to not have'n
enough

Don't get mad at the stop light only thing I stole was the spot light sell out give'um hell
or get the hell out

The coldest with no notice I switch the artinary check ya blackberry

I'm send'n text's ta all my workers in a Lexus the corner office the diamond cut crosses
without God it's all losses

(Chorus)

Everything's good (Everything's good)

Everything's fine (Everything's fine)

It's go'na be alright

So you aint got'a worry tonight

Everything's good (Everything's good)

Eyes to the sky (Eyes to the sky)

The future is bright (The future is bright)

So you aint got'a worry tonight

(Verse Two)

Look at the stars on an open night you never know who's in the crowd at an open mic
It's never over right they try to over right over night jobs my mom did to make sure we
had a good 25th

One year we even had a real tree now I cop realty this is my life can you feel me

Film me so they know the truth about a self made millionaire focus on they hearts and not
so much on what the children wear

Die for I think the way I use to got to use to

Hint'n car shows bring'n coups through I don' won'a loose you

Focus on ya focus its gon cost'um than you Diana Ross'um awesome

(Chorus)

(Verse Three)

If you ain't talk'n bout live'n than don't call me at all I use to google mansions print'um
stick'um on my wall

It's a all white midnight cruise we just can't loose we all must choose find your own
destiny ingredients miss'n make ya own recipe

Endlessly I do it like there's no tomorrow for the sorrows of today one swoop of the pen
He'll cancel ya debt away get ya dental paid

Lets keep on move'n stoped at the house of Dereon with the Perion

I'm a carry on for us ya boy been in the zone for months

From cop'n Kanye's at Conway's to hor d'oeuvres I'm see'n diamonds like Jay and they
all hers'

No need ta snitch time'll tell haters got a lot to say but I done grind through hell got a
check for the Pell and just like Michael Dell I started my own business

Let me buy you a drink don't think that'um stuck when the page is blank before I could
buy beer I had a mill in the bank

(Music Solo)

(Chorus)

Everything's good (Everything's good)

Everything's fine (Everything's fine)

It's go'na be alright

So you aint got'a worry tonight

Everything's good (Everything's good)

Eyes to the sky (Eyes to the sky)

The future is bright (The future is bright)

So you aint got'a worry tonight
